

PREPARED FOR

G Builders NYC

[GBUILDERS.COM](https://gbuilders.com)

Needs work

We found 5 things that could be costing G Builders NYC customers, and 3 that are working well.

3 OF 8 CHECKS PASSED

(01) / WHAT TO FIX

5 ITEMS

What to *fix*

In order of how much each one is likely costing you.

01

Not built for phones

Most visitors arrive on a phone. Text is tiny and buttons are hard to tap, so many leave before reading anything.

■ HIGH IMPACT

THE FIX Rebuild the layout mobile-first, so text, buttons and forms fit any screen.

02

Looks unmaintained (© 2024)

An old year in the footer makes the business look inactive.

■ HIGH IMPACT

THE FIX Update the content and set the year to update itself.

03

No way to enquire on the page

Interested visitors have no quick way to reach you, so many don't.

■ HIGH IMPACT

THE FIX Add a short enquiry form, a WhatsApp button and a clear call to action on every page.

04

No search description

Google picks random text to show under your name in results.

■ MEDIUM IMPACT

THE FIX Write a short description that says what you do and why people should choose you.

05

No analytics

There's no way to know how many people visit or where they come from.

□ LOW IMPACT

THE FIX Install privacy-friendly analytics so you can see what's working.

🚩 (02) / WHAT'S WORKING

3 PASSING

What's *working*

✓ Website loads

The site responds

✓ Secure connection

Padlock shown in the browser

✓ Loads quickly

What I'd do for G Builders NYC

01 A portfolio site that wins tenders

Project pages with photos, scope and results that answer a buyer's questions before the call.

02 Off-plan sales pages with payment plans

One page per development, with floor plans, pricing and a way to reserve.

03 Client progress portal with photo updates

Clients see their build move forward without chasing you for updates.
